SUMMARY

Motivated Front-End Developer with hands-on experience in HTML, CSS, JavaScript, React, and UI/UX collaboration. I specialise in responsive, user-friendly web applications with a passion for clean, efficient design. Skilled in video editing and content creation. Seeking roles in dynamic, growth-focused teams.

EXPERIENCE

Frontend Developer

PiHex Labs

Dec 2024 – Present Delhi, India

Agentic Cervical Screener

- Built the frontend of an AI medical imaging app using TypeScript and Vite
- Added an interactive image viewer for slide navigation with AI results overlaid

NiiVue (Open Source Project)

- Built UI controls for brightness, contrast, and slice navigation in a medical viewer
- Fixed canvas layering and rendering bugs

Corporate Website

- Built company website using Next.js, Tailwind CSS, and Framer Motion animations

Project Foundry

- Built an internal tool for managing project templates and specs

Scheduling Web App

- Built the UI for a booking app with secure company SSO login

Freelance Web Developer

Freelance

Feb 2023 – Nov 2024 Delhi, India

Client Projects

- Turned designer mockups into working, responsive websites
- Built reusable React components (navbars, modals, forms) across projects
- Ensured cross-browser compatibility and mobile responsiveness

Personal Portfolio (Practice Project)

- Built a responsive single-page portfolio using HTML, CSS, and vanilla JS
- Smooth scroll, reveal animations, dark theme – deployed on GitHub Pages

Fitness AI Platform (Practice Project)

- Built a multi-page fitness app UI: home, trainer, form, and nutrition pages
- Form UI for height, weight, goals, diet preference with clean HTML5 structure

Video Editor

Asiana Times

Jul 2022 – Aug 2022 Delhi, India
